

# Salmonella Uzaramo

**Background:** *Salmonella enterica* subsp. *enterica* serovar Uzaramo (antigenic formula 1,6,14,25:z4,z24:-) is a serovar of the O:6,14 (H) serogroup. Xu et al. found the presence of the *cdtB*, *pltA*, and *pltB* genes in *S. Uzaramo* suggesting a higher killing rate than nontyphoidal *Salmonella*.

**Animal reservoir:** Serovar Uzaramo was found in chicken.

**Geographical distribution:** Serovar Uzaramo has been found in South Africa, China.

**Outbreaks:** No outbreaks have been associated with *S. Uzaramo*.
