

# Find carriage return and line feed characters in call numbers

This query will find carriage returns and line feed characters in call numbers and remove them, using the Replace function.

Note: chr(10) is a line feed; chr(13) is a carriage return:

```
select
    he.call_number,
    replace (replace (he.call_number, chr(13), ''),chr(10),') as fixed_call_number
from folio_reporting.holdings_ext as he
where he.call_number ~ '\n'
```
