

LTS Acquisition and Cataloging Dashboard.

The following dashboards are automatically updated every morning by 9:00am.

[Accessing and Using Data Dashboards - Detailed Instructions](#)

Description	Tableau Dashboard	Instructions
Acquisition dashboard was created to assist Library Technical Services in daily/weekly or yearly operations. It provides the total amount of processed titles and Purchase Orders, including Firm Orders for print and e-materials as well as total amount of titles received on approval plan from different vendors.	LTS Aquisition Dashboard.	
Cataloging dashboard was created to assist Library Technical Services Cataloging unit with statistics for different type of cataloging services they provide on day to day basis.	LTS Cataloging Dashboard
