

2006 Minutes

From Oya: Minutes of KVRF progress meeting 20060110

Next Meeting:

Title: KVRF

Monday, February 06, 2006

Time: 1:00 pm to 2:00 pm (EST5EDT)

Location: TBD

Hi All - I am tentatively putting this meeting in our calendars. We may need to postpone it if we do not have enough new information to share by this meeting time. Our action agenda includes (for future meetings):

1. Oya will talk with CIT about Lynx program & how it could support visual resources use by faculty (will try to do before our next meeting)
2. How can we generate ArtStor & Luna usage data for comparing usability etc.? (this has been in Integrated Framework (Adam Chandler) and Visual Resources Production (Rick) groups agenda. Tricky issue and will take us a while to come up with a plan.
3. Mira's role in the ingest process (both initial batch and ongoing updates to the database - overseeing & training) - Oya & Gale will explore this issue.
4. Gale and Rick will continue with Pictor to VRA mapping
5. Rick, Gale, Oya, Marcy - Assess the current Luna test vs. production workflow for KVRF project
6. Processes and workflows for QC - how and when do we fix errors?

Please add if I left out anything.

Oya
