

Presentations

Presentations

More presentations are attached to this page. The general PowerPoint presentation as of May 2009 is too large to attach to the wiki, but it is located on the team USB drive in the main demo plant suitcase, and it is located in the Documents folder on the clearwater account in the AguaClara lab. In Fall of 2009 a modified version of the general presentation was created to use during [ENGRD 1050 presentations](#). This version de-emphasizes the technical aspect of AguaClara and takes a closer focus on how the three teams operate as well as AguaClara's purpose and impact. It is attached to this page. See Children Pages for information on conducting [ENGRD 1050 presentations](#) and setting up the [demo plant](#).

Most Updated Presentations for each occasion (As of Spring 2010)

- [For General Public](#)
- [AguaClara Technology](#)
- [AguaClara General Presentation from 2009 \(contains more graphical reference\)](#)
- [Sample Partnership Proposal Presentation to Corporations](#)
