

AguaClara Repositories

AguaClara SourceForge Team Repositories

Files used by AguaClara Team members are stored online using SourceForge in locations called repositories. Each project team for AguaClara has their own repository. These files, despite being divided into different teams, can be accessed by all team members. Below is a listing of the locations for repositories currently available.

SourceForge Repository URLs

- Automated Design - [https://forge.cornell.edu/svn/repos/automated_design/Final Designs](https://forge.cornell.edu/svn/repos/automated_design/Final%20Designs)
- Pilot Plant - https://forge.cornell.edu/svn/repos/pilot_plant
- Demo Plant - https://forge.cornell.edu/svn/repos/demo_plant
- Automated Flow Control - https://forge.cornell.edu/svn/repos/automated_flow_control
- Sedimentation Prototype - https://forge.cornell.edu/svn/repos/sedimentation_prototype
