

2008-10 October - Career Development for IT Professionals

Tuesday, October 21, 2008 noon - 1:00 p.m. 703 Olin Library

Career Development for IT Professionals

CUL's Linda Bryan and CIT's Linda Croll Howell

Career Development means different things to different people. Whether you are looking to enrich your current job, get promoted or move to a new opportunity, there are some key changes and trends occurring in the IT field that are important to consider. This talk will provide some insight into these trends as well as some practical tips and strategies that may help to get you jump started on your personal career development goals.
