

# 2008-11-04 mtg Sharing Outcomes

## Feedback fill in

### Response to suggestions

- importance of categorization
  - we have Groups and Categories fields
- continuous incremental LL ( by, anyone , not just PMs)
  - yes it is not just for PMs or PM information
  - yes all will be in one tracker and we will continue to add additional
- Pilot
  - we have added the LL Project out there
  - Chris has added all LLWG persons to the project
  - we have added the link to the LLWG home page as well as on this page and the agenda page for session 3.

### Thoughts

- add link from CPMM to SF Tracker as well as from other support groups web sites.
- still struggling with category values, and whether we need Group and Category field or just ONE
- working to make the interface more "informational" when creating a new "artifact" or LL document.
