

Grants

Grants

Finding and applying to [grants](#) are a key function of the AguaClara Outreach Team. Below are links to a database and a summary of grant applications that have been completed. Attached to the grant application page are those specific applications we have submitted; future grants can be found from this on-line directory: <http://fconline.fdncenter.org/>.

In Fall 2010, grant research was not a primary goal. Potential grants that were investigated this semester are listed in the [Grant Database](#).
